2011 December EXPO

This year’s Fall EXPO was held on December 9th. There were 29 completed projects on display and 56 posters of projects that will be completed in May. The weather and attendance were both excellent. Pictures of the EXPO can be found at:

There were five finalists selected, based upon a complex criteria, from both semesters. The finalist projects were:

Renewable and Modular Micro-Source Power Generation – combination of solar and hydrogen fuel cell power generator for extreme efficiency, sponsored by the ECE Department.

Virtual Presence – an autonomous robot with two way video permitting a remote user to communicate with individuals anywhere in a building, sponsored by NASA.

Whites Creek Pump Station Improvements – a civil engineering problem to alleviate the Whites Creek Pump Station of excess flow, an Engineering Technology Department project.
